

Micro Separations Micro Glass Fiber Tape Roll

Type-MGFBM (BAM TAPE ROLE)

Micro Separations high purity micro glass fiber BAM Tape roll manufactured with 100% borosilicate glass fiber and organic binder. With extreme mechanical stability and temperature resistance up to filter units and air analyzers.

Features and benefits

- Extreme Mechanic stability
- Used as a weighing aid for infrared weighing
- Used up to 180oC

Specifications

Property	Unit of measurement	Value	Variations
Filter Media	n/a	Quartz Micro Fiber	n/a
Basic weight	Mm	0.45	± 15
Thickness	gm²	85	Maximum
Pressure drop (Kpa)	inches	8"x10" 203mm x 254mm	± 1/16
Efficiency (%)	µm	1.6	Mean
MD Tensile	%	99.95	Min.
Binder	s/100ml/in²	6.4	Max
Air Flow Rate	(secs/100ml)Herzberg	62	Max

Recommended for Beta attenuation monitor for PM2.5 & PM 10 Monitoring
