

PP Membrane (MPPP)

This filter is a preferred choice for HPLC applications. This plastic polymer has very good resistance to a broad range of chemicals even at high temperature. Adaptable materials for applications ranging from air filtration.

Typical Applications

- ◆ Aqueous and organic solvent filtration
- ◆ Depth filtration
- ◆ Sterilize gases, traps aqueous aerosols
- ◆ Air and gas venting

Color	White
Material	PP
Reaction to water	Hydrophilic
Pore size	0.22-0.45 μm
Diameter	13/25/47/90mm
Package	13mm, 100 pcs 25mm, 100 pcs 47mm, 100pcs

Ordering Information
